Applied Rapid Technologies Sponsors Additive Manufacturing User's Group Gold Level Sponsor for 2013 AMUG Conference in Jacksonville, FL

FREDERICKSBURG, VA, April 14, 2013 -- Applied Rapid Technologies Corporation (ARTCORP), a leading provider of rapid prototyping and short-run production solutions announces their Gold-Level sponsorship of the 2013 Additive Manufacturing Users Group (AMUG) Conference to be held in Jacksonville, FL from April 14 – April 18, 2013. AMUG is the leading educational event for those working in the additive manufacturing industry. The group's mission is to educate and advance the uses and applications of all additive manufacturing technologies.

Company president Bruce LeMaster notes that "I attended my first users' conference in 1996 and have only missed two since then. This annual event is an excellent source of information, training, and networking for those of us in the rapid prototyping/additive manufacturing industry and one that I budget for each year. I'm very excited to once again be a sponsor of this conference."

Jacksonville, FL - April 14 – April 18, 2013

Please contact ARTCORP at 1-540-286-2266 for more information regarding the Additive Manufacturing Users Group, rapid prototyping and short-run production, as well as soft tooling, urethane castings, and production paint services, or visit www.artcorp.com.

About Applied Rapid Technologies Corporation (ARTCORP)

Applied Rapid Technologies Corporation is a leading provider of rapid prototyping and short-run production solutions. ARTCORP utilizes stereolithography (SL), Polyjet™, and fused-deposition modeling (FDM) technologies to produce plastic models and parts that allow entrepreneurs to Fortune 500 firms the ability to prototype and test their designs before going to production. In addition, ARTCORP offers soft tooling, urethane casting, and production paint services including two-part polyurethanes, CARC coatings, and silk screening for prototypes and production parts.

Located in Fredericksburg, VA with sales offices in Columbia, MD and North Andover, MA, ARTCORP serves the mid-Atlantic and northeast region and has customers throughout the U.S.A. and Canada. For more information contact ARTCORP at 1-540-286-2266, or email us at rapid@artcorp.com, or visit our website at www.artcorp.com.

About Additive Manufacturing Users Group (AMUG)

AMUG is an independent, industry-wide users group that gives its members a forum for learning, information exchange and establishing professional connections. The group is open to anyone who owns or operates additive manufacturing equipment. Additional information can be found at www.additivemanufacturingusersgroup.com.
